Attempted Robbery at the Drug Store.

Another attempt to rob Chambers' drug store was made here early on Friday morning last, and was only frustrated by the fact that Didsbury has a night policeman. After witnessing the departure of the 3.11 northbound, Constable Kershaw in returning to the business portion of the town thought he noticed a small glow in the drug store, and upon investigation discovered the store as well as the inside door at the rear of the store had been tampered with, both evidently having been smashed to effect an entrance. With his flash light in one hand and his gun in the other, Kershaw ordered the thieves to come forth. "Or he would go in after them." One of them came out with a rush, ran into the policeman and had covered some distance when Kershaw fired. The man, however, got away down the lane. At this point another man came out of the store, and after striking Kershaw with some blunt weapon made his "getaway" also. Mr. Chambers was called up and came down just as a car pulled out from the other side of the road headed west.

Probably due to the early arrival of the policeman, Mr. Chambers found nothing had been taken from the store, and so far no tidings have been heard of his unwelcome visitors.

WEED CAMPAIGN TO BE LAUNCHED.

A most intensive weed campaign is to be undertaken at an early date in Alberta. Supervisors are to be appointed by the department as well as inspectors by the municipalities. Inspectors for local improvement districts will also be appointed by the government.

Mr. Scholefield stated that it was recognized that weed menace was becoming more pronounced each year, and it was stated on good authority that Alberta lost between 20 and 25 million dollars annually because of noxious weeds. It was expected, he said, that W. J. Stephen, who was in charge of weed control work, would be authorized to spend \$40,000 to \$50,000 this year in combatting the menace.

It was the intention of the advisory board to select at least four supervisors for continuous service all the year round. In the summer they would attend to the work in their respective districts and in the winter would lecture at schools of agriculture and address meetings throughout the country. Assistance was to be sought from every possible quarter in carrying out the campaign. A weed conference was to be held in June, which, he said, would be attended by all the supervisors and inspectors, councillors of municipalities and all those interested in weed eradication.

J. R. Miller, agent of Sun Life Assurance Co. of Canada at Didsbury, has decided to move to Innisfail, and will locate here with his family about July 1st. Mr. Miller is well known to the Innisfail curlers and golfers and will receive a hearty welcome.—Innisfail Province.

He—After all, I'm sure there is no place like home.

She—Why, has something unpleasant happened at the club, dear?

"Jack, there's a motorcycle chasing us. Is it a traffic officer?"

"No, worse. It's the guy who collects the installments on this car."

WORLD HAPPENINGS BRIEFLY TOLD

Tin has been discovered in Northern Manitoba according to a wire received by Premier J. Bracken from a prospector named Vina A. Lacker, of The Pas, Man.

The House of Lords unanimously adopted a resolution presented by Lord Reading that the proposals for the outlawry of war, presented by the U.S., should have prompt and favorable consideration.

Sir Frederick Stupart, director of the meteorological service of Canada, and of the Toronto Observatory, will retire at the end of the year. He had been connected with the service for more than 55 years.

Cheques amounting to over \$18,000 have been distributed among beet growers of southern Alberta by the Canadian Sugar Factories, Limited. This represents an additional payment of 50 cents a ton for 1927 beets, bringing the total amount paid for last year's deliveries up to \$7 per ton.

WAS VERY WEAK NERVOUS AND MELANCHOLY

Mrs. Geo. McKenzie, Campbellford, Ont., writes:—"A short time ago I was troubled very badly with my heart and nerves, the cause of it, I think, was my going through the change of life."

"I was very weak and melancholy, and so nervous I could hardly bear to hear a clock ticking, and I did not sleep well."

"I was advised to try so I sent at once for a box; took them and got another, and before they were all gone I felt good, my nerves are fine, I do not mind any noise, and I can sleep well. I cannot recommend them too highly to those suffering as I did."

Price 50c. a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Will Open Marble Quarry

Farmers' Marketing Tour

Canadian National Railways' Tour To Great Britain and Denmark, 1928

We reached Plymouth in the early morning, while it was yet dark. How strange to find our ship suddenly still after days and nights of throbbing movement. How eager we were to get ashore to feel our feet at last on English soil.

Our itinerary promised us great things, but who would have imagined an official reception at the hour of 7 a.m. We were scarcely ashore when we found ourselves greeted by the Mayor of Plymouth (Councillor W. H. J. Priest) who warmly bade us welcome to Plymouth and England, awakening that sense of kinship which we were to feel more and more deeply every day of the tour.

Here also we made the acquaintance of Mr. E. A. Weir, organizer of the programme and itinerary, and Mr. D. M. Johnson, European Colonization Manager, of the Canadian National Railways, London. Our programme told us that we were to have landed at Liverpool, but circumstances had ordained that we should have the pleasure, not only of seeing the historic town of Plymouth, but of travelling through some of the most beautiful countryside that the west of England can boast.

We were taken to Plymouth Hoe. We were shown where Drake finished his game of bowls before going to fight the Spanish Armada. We saw the spot where the Plymouth Father's embarked; and the ladies of our party were taken for a private motor tour over the moors of Devon.

We could have had no better introduction to the beauties of the Old Country than our trip from Plymouth to Liverpool, for it took us through Devon, Somerset, Monmouth (by way of the Severn Tunnel), Hereford, Shropshire and Cheshire, unfolding before us a complete panorama of English life—rich rolling lands, quiet towns and villages, bustling industrial cities; and it was fascinating to us as Canadian farmers to note the different breeds of animals that were seen in the fields as we passed into the counties famous for them; they also marked the boundaries! Although it was January, men in many parts were working in the fields preparing the land for spring.

Liverpool was reached in the evening where we found our hotel one of the finest in Europe, with steam heat and running water in every bedroom. Here Mr. Weir explained the objects of our tour and presented each of us with a volume containing much information on markets and descriptions of most of the places we were to visit. The next morning, sharp at nine, in bright sunshine and a crisp air we were on our way to the extensive dock system of the Port of Liverpool, through which passes a third of the ocean-going traffic of the United Kingdom. The docks extend for 7 miles, and our visit was to the most recent addition, the Gladstone Docks, which were opened last year by His Majesty the King. The Gladstone Graving Dock which forms part of it, the largest dry dock in Europe, can accommodate the biggest ocean liner. We were shown through one of the three-storey warehouses of this dock whose combined warehouse provides 60 acres of storage space. Even the roofs accommodate goods in times of emergency and from one of them we obtained a view of the whole Gladstone Docks system. Hundreds of cranes, ships upon ships, and piles of merchandise gave us a vivid impression of the important part that Liverpool plays in the everyday commercial life of Great Britain. One vessel alone was unloading 8,000 carcasses of frozen Australian mutton, yet this was not considered a very small shipment. The previous ship from Australia had brought five times as much in addition to other cargo!

The docks of the Port of Liverpool are under the jurisdiction of the Mersey Docks and Harbour Board, and during our inspection of the Gladstone Docks, we were the guests of this organization. The great tobacco warehouse was next visited, where we saw storage space for 70,000 hogsheads of tobacco, each valued at about \$2,500, the value of the tobacco in store at the time of our visit being more than one-third of the total value of Canada's wheat crop last year, and we noted with pleasure a large quantity of Canadian tobacco. Outside the building is an incinerator, known as the "King's pipe" where all condemned and spoiled tobacco is destroyed.

We were now taken to the Liverpool Corn Exchange where we saw a spot market and were able to examine the different kinds of grain that come to the British market from other countries. We also visited the main trading hall where British grain dealers gather for direct trading; and completely equipped laboratory for the grading of grains. Before leaving, we were addressed by R. G. Harker, the President of the Exchange, who in an informative talk told us that one-fifth of the wheat imported through the port of Liverpool was Canadian and one half of that was absorbed by the mills of the Liverpool area.

After lunch we paid a flying visit to the extensive cattle lairages at Birkenhead, across the river, where fat and store cattle are received, now mostly from Ireland, the supply of

NEW STRENGTH FOR ALL WEAK GIRLS

Comes From the Rich, Red Blood Made By Dr. Williams' Pink Pills

There must be no guesswork in the treatment of pale, anaemic girls and children. If your daughter is languid, has a pale, sallow complexion, is short of breath after slight exertion or on going up stairs, if she has palpitation of the heart, a poor appetite, or a tendency to faint, she has anaemia—the medical name for poverty of the blood. Any delay in treatment may leave her weak and sickly for the rest of her life. When the blood is thin and watery give Dr. Williams' Pink Pills, coupled with nourishing food and gentle out-of-door exercise. The new, life-giving blood which comes from a fair use of Dr. Williams' Pink Pills, increases the appetite, stimulates the nerves and brings a glow of health to pale cheeks. Mrs. Robert Jackson, R.R. No. 5, Shelburne, Ont., praises this medicine for restoring her daughter's health. She says:—"When my daughter was nine years old she was so weak and thin that we feared we would lose her. She was very nervous, and going to school seemed too much for her. Often she would have to stay at home for days at a time. At times she would have a very high fever, and the doctor's treatment did not help her. I tried several remedies, but with no good results. One day a friend advised me to give her Dr. Williams' Pink Pills, and I did so. It was not very long after she began taking the pills that I could see a change for the better. She kept on taking the pills for several months, and through them grew into a strong, healthy girl. Since then, if a tonic has been needed at any time, it has always been Dr. Williams' Pink Pills."

The pills are sold by all medicine dealers or will be sent by mail at 50 cents a box by The Dr. Williams' Medicine Co., Brockville, Ont.

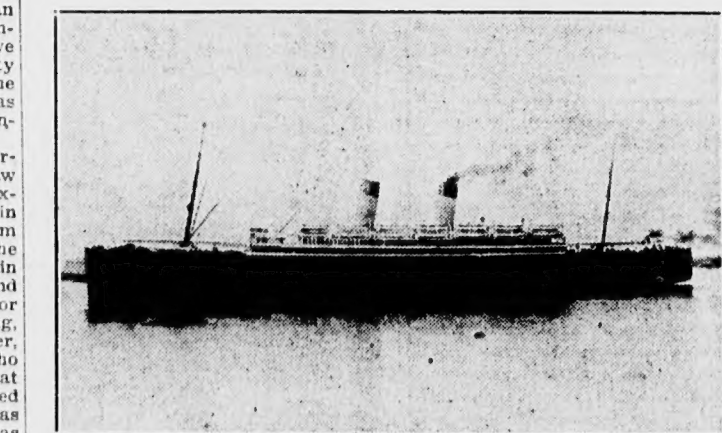

If you are anxious to become a prominent citizen locate in a small town.

Simple and Sure.—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used as a liniment the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

Better swallow your indignation when you thirst for revenge.

The older the pessimist is the less faith he has in human nature.

NEW WHITE STAR LINER LAURENTIC

The new White Star liner "Laurentic," 19,000 tons, completed late in 1927, especially for the St. Lawrence route, which arrived in Montreal on May 8, on her maiden voyage to St. Lawrence ports. With the White Star liner "Albertic" she shares the honor of being the largest cabin liner ever to come up the St. Lawrence to Montreal.

SUNDAY SCHOOL LESSON

MAY 27

THE WICKED HUSBANDMEN

Golden Text: "Jehovah knoweth the way of the righteous: But the way of the wicked shall perish."—Psalm 1.6.
Lesson: Mark 12:1-12; 13:1-37.
Devotional Reading: Psalm 1.

Explanations and Comments

The Parable Of the Wicked Husbandmen, verses 1-8. This is the parable which Jesus spoke to the Pharisees. A man planted a vineyard and provided it with all things necessary for the making of wine, protected it with a hedge and watch tower and dug a pit for the winepress. Recall the question of the owner in Isaiah's "Song of the vineyard": "What could have been done more?" This Song was well known to the enemies of Jesus, and when Jesus began in this way they undoubtedly recalled it and its direct condemnation of the leaders of the people of Isaiah's time, and knew that Jesus was about to utter a condemnation of themselves.

Then the lord of the vineyard let it to husbandmen and went away. (Possibly it may be necessary to explain to pupils that the husbandmen were the farmers. One pupil when asked the meaning of the word said they were the married men.) When the season of fruits came round he sent one servant after another to collect what was due to him, but the husbandmen beat one, badly treated another, killed a third; in like manner they treated yet other servants whom he sent. "Which of the prophets did not your fathers persecute?" Stephen cried to the mob which soon stoned him; "and they killed them that showed before of the coming of the Righteous One." "Jesus treats the whole long series of violent rejections as the acts of the same husbandmen. The class or nation was one, as a stream is one, though all its particles are different, and the Pharisees and scribes were the living embodiment of the spirit which animated all the past."—Alexander MacLaren.

"The terrible nemesis of evil is that it ever tends to reproduce itself in aggravated forms. Think of the influence of habit; the searing of conscience, so that we become able to do things that we would have shrunk from at an earlier stage. Remember how impunity leads to greater sin. So here the first servant is merely sent away empty, the second is wounded, the third is killed. All evil is an inclined plane, a steady, downward progress."

Miller's Worm Powders not only make the infantile system untenable for worms, but by their action on the stomach, liver and bowels they correct such troubles as lack of appetite, biliousness and other internal disorders that the worms create. Children thrive upon them and no matter what condition their worm-infested stomachs may be in, they will show improvement as soon as the treatment begins.

Crow and Gopher Campaign

Manitoba Department Of Agriculture Offers Prizes Totalling \$2,000

The Manitoba Department of Agriculture announces a campaign against crows and gophers in which prizes are offered for the persons sending in the greatest number of legs, eggs and tails to the Chief Game Commissioner. For each gopher tail one point will be reckoned, for each crow's egg two points and for each crow leg four points. The first prize is \$100 and minor prizes will bring the whole amount to \$2,000.

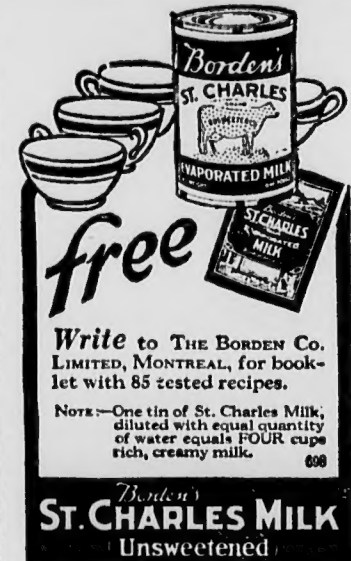

Eggs must all be taken and gophers and crows all killed not later than September 1, 1928, and within the province of Manitoba.

Trade With China
American tourist business in China is having a far-reaching effect upon the dairy industry of British Columbia. The American tourist has carried to the Orient his well known appetite for ice cream and to meet his demand, ice cream is being shipped to Shanghai from Vancouver. There is also growing Oriental demand for Canadian fruits, butter, beef and bacon.

Men who speak before they think have occasion to offer many apologies.

Don't Make a Toy Out of Baby
—Babies Have Nerves—
By RUTH BRITAIN

Much of the nervousness in older children can be traced to the over-stimulation during infancy, caused by regarding baby as a sort of animated toy for the amusement of parents, relatives and friends. Baby may be played with, but not for more than a quarter of an hour to an hour daily. Beyond that, being handled, tickled, caused to laugh or even scream, will sometimes result in vomiting, and invariably causes irritability, crying or sleeplessness.

Fretfulness, crying and sleeplessness from this cause can easily be avoided by treating baby with more consideration, but when you just can't see what is making baby restless or upset, better give him a few drops of pure, harmless Castoria. It's amazing to see how quickly it calms baby's nerves and soothes him to sleep; yet it contains no drugs or opiates. It is purely vegetable—the recipe is on the wrapper. Leading physicians prescribe it for colic, cholera, diarrhea, constipation, gas on stomach and bowels, feverishness, loss of sleep and all other "upsets" of babyhood. Over 25 million bottles used a year shows its overwhelming popularity.

With each bottle of Castoria, you get a book on Motherhood, worth its weight in gold. Look for Chas. H. Fletcher's signature on the package so you'll get genuine Castoria. There are many imitations.

NELLIE L. McCLUNG

Copyright, Canada, 1925

CHAPTER XXIV—Continued.

Then he exalted war and military life. It developed the best in a man, and at this the Major beat his breast, directing his audience to that storehouse of accumulated virtues. Then he appealed to the young men to "get into the game." He painted the glory of it, the freedom of it; the army was the place where a man was a man. The nation's hero was the warrior—mollycoddles have no place in the world, especially with women. There was truth in the old song yet:

"If a lad a lass would marry
He must learn a gun to carry."

Then in a lighter vein the gallant Major hinted at the charm of the French girls and how they admired the Canadians. His manner indicated that but for the presence of the ladies he could tell more.

While he was speaking, Pte. Crowe's hands were never still, nor did his lips cease from trembling.

The Major then called for recruits. "One volunteer," he said, "is better than ten conscripts. Conscript is coming, though"—he gloated over this—"we cannot desert our Army now. If men will not fight of their own accord, there are other methods." The Major unconsciously tapped his sword.

Suddenly it became apparent, even to the Major, that the spirit had gone out of the meeting. His audience sat stony-faced and rigid—the fires had gone out—the current was off. There was no response to his call.

The appeal had not gone home to the men of the north, who love the long trail, with its camp-fires and its peace; brave men, who do their duty from an inward sense, but to whom the thought of force brings not fear but rebellion.

The chairman tried to save the situation by calling for a song, but something had gone from the meeting. The people began to straggle out.

As Jack made his way back to the hotel he was deeply disturbed in mind. There was no moon, but the night was bright with stars. Looking up, he saw the North Star, like an old friend, looking so remote, serene and undismayed, though nations were rocking with war and hatred. The Major and his fiery eloquence were easy to turn aside, but Pte. Crowe so pale and shaken, quivering with the horror of war, walked beside him in spirit.

The hotel that night sounded with jangling noise, shrill voices, snatches

WOMAN SO SICK COULD NOT WORK

Helped by Taking Lydia E. Pinkham's Vegetable Compound

Grainland, Sask.—"I am glad that I heard of that good Lydia E. Pinkham's medicine and I will not be without it again. I was so sick that I could not work at all and could not sew on the machine. My aunt told me of Lydia E. Pinkham's Vegetable Compound and now I am telling all of my friends how good it is and I will answer all letters I get from women."

—MRS. MARY SCHULTZ, Grainland, Sask.

W. N. U. 1734

of song, bursts of harsh laughter. The Major was a prince of story-tellers. "Say, boys, did you hear this one? One of the boys who had been on leave . . . "Roars of laughter followed, then more beer. "Too much hard liquor is bad," laughed the Major, "but too much beer is just right. No danger of being pinched for being noisy—we have both the proprietor and the policeman. Now, listen to this. There was a French girl . . . "

At one o'clock the party broke up. The Major had secured six names. He decided the next morning to let Private Crowe go back to the City. The kid was all right, but he lacked "pep." This was a job for a real man, and after all, the best little recruiter apart from himself, if it ever could be considered from himself, was the amber-colored bottle. It gave just the proper warmth and glow.

Jack made his journey around by Edmonton to Eagle Mines, arriving there on the first day of February. There had been no reply to his wire. He stepped off the train with a strangely beating heart. Helmi would be there, surely, but the platform was almost bare. Not a person whom he knew did he see as he hurried across the street and over to his own house.

The door was not locked, and he went in. A strange scene met his eyes—dirty dishes on the table, the remains of a slovenly meal; ashes from cigars on the plates; the bed showing that it had been slept in; the coffee pot was on the stove. The floor had been tramped by muddy feet and spat upon by tobacco choppers, and a forgotten pipe was on the window-sill. The air was heavy with tobacco smoke and the stale fumes of beer.

Jack's heart was heavy with apprehension. He went up to the loft by the ladder on the wall. The bed there had been used too, and a man's coat was thrown across it. There it was—the house he had built—defaced, defiled. What did it mean? He would know what it meant, he would go over to the boarding-house.

Mrs. McMann, a few minutes later, related the interview to her friend Mrs. Turner. "He bounded in at me," she said, "just when I was putting the potatoes on to boil. 'Where's Helmi?' he almost shouted at me, without even bidding me the time of day. How could I tell him where Helmi was? 'She's not here,' I said, 'and I don't know where she is—she's been gone over a month,' I says. 'Where did she go?' he said. 'To Edmonton,' I said.

"Why did she go?" he stormed! Didn't she know I was coming back! 'Where did she say she was going?' 'Well, Helmi never confided in me, as you know,' I said.

"Land! I couldn't tell him why she went. I never was one that could talk about those things. I don't believe any of my people could. The Weekes were funny that way.

"Where's Sim?" he said at last, staring at me as if he didn't see me. 'Sim had an accident in the mine, and went out the last train.' 'Well, look here, Mrs. McMann, who has been stayin' in my house,' he says, 'can you tell me that?'

"I knew very well a party of hunters had spent the night there—swells from town out deer shootin'—drunk as fools, too—I wouldn't let them in. 'I certainly have no knowledge of what's been goin' on in your house since you've gone,' I said, very stiff. Mr. McMann always said there was no one could be stiffer than I could when I wanted to be. 'Do you know of anyone having stayed there?' he said. 'Yes,' I says, 'the crazy Englishman from English Creek was there for a week, about six weeks ago.'

"Lord, I thought he was goin' to strike me—but none of the Weekes was ever cowards, so I just glared back at him stiff as pork. I could give him eye for eye, let me tell you. He went out at that and over the the office. I think maybe he expected a letter from Helmi, but if she's written to him it's more than she's done for any of us. Gone over a month and not a word from her. And I was good to that girl, though I ain't the one to tell what I've done for anyone. Now, if Jack Doran had come in a better spirit he might have heard more from me. I'm funny that way, anyone can lead me, but strong horses can't drive me."

Jack Doran went to the postoffice. His voice sounded queer to him, and his tongue felt like a piece of rope. "Are there any letters for me, Mr. Armstrong?" he asked, hoping his

Experience of more than thirty years proves that aluminum is the only completely satisfactory material in which to pack tea. Red Rose tea is put up only in aluminum, and a "money-back" guarantee goes with every package.

11-W

voice was not beating like his heart.

"Two have just come for Mrs. Doran," said the postmaster, handing them to him. "Glad to see you back to us again, Jack. People come and go at Eagle Mines—come and go—it makes it hard for a postmaster."

Jack went back to his own house—he must get under cover—the eyes of the people he met hurt him—they bored into him, twisting, turning, screwing, gouging, red-hot and sharp as ice. He must get somewhere where he could shut the door.

In his own house, Jack sat with the letters in his hand. Helmi had gone, she had not waited. He was a month late, but Helmi should have waited. Where had she gone?

The letters might tell him—it would be better to know. He opened the first one and found it contained a Government cheque for fifteen dollars payable to Helmi Doran, and it said it was on account of Pte. Arthur Warner. Jack stared at it without understanding.

The other letter was from Montreal. "Dear Helmi," it said, "I have made over my separation allowance to you, and I hope you will accept it from me. You are the only person in Canada who has any claim on me. I have paid every other person in Canada for everything they have ever done for me. You, dear Helmi, I can never pay in money, for you gave me the most precious thing a man can have who goes out as I am going, a memory of something tender and sweet. I have made my will, leaving everything I have to you. I will never forget your last words to me. Nobody ever spoke to me like that before. Will you write to me, Helmi? Ever Yours, Arthur Warner."

(To Be Continued.)

Could Hardly Live For Asthma, writes one man who after years of suffering has found complete relief through Dr. J. D. Kellogg's Asthma Remedy. Now he knows how needless has been his suffering. This matchless remedy gives sure help to all afflicted with asthma. Inhaled as smoke or vapor it brings the help so long needed. Every dealer has it or can get it for you from his wholesaler.

Jap Flier Was Ambitious

Not satisfied with his first record for night flying, Captain Toshio Kato, of the Japan aviation school at Tokyo, immediately flew again and established a new record. He hopped off at 5.30 o'clock in the evening and broke by 35 minutes his previous record of six hours in the night air. He immediately flew again and remained up until 9.25 o'clock in the morning, besting his previous record of the night by three hours. Most of his flying was in dense fog.

Neuralgia succumbs to Minard's Liniment.

Don't believe all a man says about his neighbor, nor half he says about himself.

Love and potatoes must be akin—they both spring from the eyes.

CUTICURA HEALS LARGE PIMPLES

Caused Itching Burning,
Also Disfigurement.

"My complexion was completely marred by pimples which varied in size. Some were large, hard and scaly, while others were just red and febrile. They caused an itching, burning sensation, also disfigurement.

"After using scores of remedies for over two years, with but little results, I sent for a free sample of Cuticura Soap and Ointment. I was so pleased with the results that I purchased more, and after using two cakes of Cuticura Soap and one large box of Cuticura Ointment I was completely healed." (Signed) W. E. Blackburn, 20 Bellevue Ave., Toronto, Ont.

Use Cuticura to clear your skin. Sample each free by mail. Address: Canadian Depot: "Saskatoon, Ltd., Montreal." Price, Soap 25¢, Ointment 25¢ and 50¢. Tel. 1000. 1000 Cuticura Shaving Stick 25¢.

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Saskatchewan Dental Society

WHY "NEW TEETH FOR OLD"?

Perhaps you were wondering why little sonny had to lose his "baby" teeth and have them replaced with new ones.

Why, you asked yourself, do they not remain permanently and develop in size during the growing years just as do the ears and eyes?

"Because they become decayed," you say; but not necessarily so since tooth decay is a disease and is therefore abnormal and preventable; and for that matter, when you lose a tooth through decay at six and twenty, does a new tooth replace it?

But consider: You have seen a little sapling grow to be a big tree—"large oaks from little acorns grow"—but did you ever hear tell of a small pebble growing to become a large stone? Not likely so, and for obvious reasons, for, as you know, the tree is of organic matter, while the stone is of inorganic.

Now the tooth, being composed largely of inorganic matter, especially the outer enamel covering, which is almost wholly so, like the pebble, cannot of itself change in form, and so grow larger once it is fully developed.

Obviously too, sonny's little jaw has no room for the larger teeth that he will need when he is fully grown.

So unlike the potatoes that "from little ones do big ones grow" we have instead, "new teeth for old."

These baby teeth then serve temporarily for mastication until the maxillary or jaw bones are sufficiently developed to accommodate the larger permanent teeth of adult age.

They are mother Nature's expedient, as it were, and a good expedient too, if given half a chance.

No matter how deep-rooted the corn may be, it must yield to Hollo-way's Corn Remover if used as directed.

Little Helps For This Week

"Inasmuch as ye did it not to one of the least of these, ye did it not to me."—Matthew xxv. 45.

Living, thou dost not live
If mercy's spring run dry,
What Heaven has lent thee wilt thou freely give,
Dying, thou shalt not die.

He promised even so:
To thee His lips repeat,
Behold, the tears that soothed thy sister's woe
Have washed thy Master's feet.
—Oliver Wendell Holmes.

The final test of religion at that last day is not religiousness, but love; not what I have done, not what I have believed, but how I have discharged the common charities of life. By what we have not done—by sins of omission—we are judged. It could not be otherwise. For the withholding of love is the negation of the spirit of Christ, the proof that we never knew Him, that for us He lived in vain.
—Henry Drummond.

Recipes For This Week

(By Betty Barclay)

CREAM OF ASPARAGUS SOUP

Wash each stalk of asparagus carefully with a vegetable brush to remove all grit. Then cut in small pieces (using all but the very tough parts). Cook, covered, until the asparagus is tender, in enough water to cover. Add salt to taste just before the asparagus is done. Allow two cups cooked asparagus and cooking water to 2 cups medium cream sauce (2 cups milk, 4 tablespoons flour, 4 tablespoons butter). Season and serve hot.

Note: The less tender part may be cooked longer and put through a sieve. If desired, the tops may be used for salad).

FRUIT BLISS

2-3 cup sugar.
1-3 cup water.
2 egg yolks.
4 tablespoons lemon juice.
Red color paste.

3 cups fruit.
Boil sugar and water five minutes. Pour over egg yolks, cook over hot water until thick, stirring constantly. Add lemon juice and red color paste and chill. Pour over fruit, using peaches, oranges, red cherries and strawberries cut in pieces. Serve very cold. Serves 6.

The time to take care of the coming years is this year.

Minard's Liniment for Toothache.

THERE is nothing quite equal to Aspirin for all sorts of aches and pains, but be sure it is Aspirin. The name Bayer should appear on every tablet. Bayer is genuine, and the word genuine—in red—is on every box. You can't go wrong if you will just look at the box when you buy it:

Aspirin is the trade mark (registered in Canada) indicating Bayer Manufacture. While it is well known that Aspirin means Bayer manufacture, to assure the public against imitations, the Tablets will be stamped with their "Bayer Cross" trade mark.

Enlisting Their Sympathy

Counsel for the victim of a motor accident: "Gentleman of the jury, the driver of the car states he was going only four miles an hour. Think of it! Think of the agony of my client, the victim, as the car drove over his body at four miles an hour!"

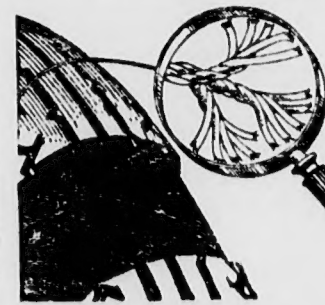

A Reliable Antiseptic.

Make sure no infection of cuts and wounds takes place, by applying Minard's Liniment.

Spring Bull Sale

The spring bull sale, an annual event in Calgary, since 1901, broke all records for prices. Approximately 400 bulls were sold at an average price of nearly \$300. The champion Hereford sold for \$1,125.

Why Firestone Tires Give Most Miles Per Dollar

The greatest enemy to tire life is not the harsh grind of city streets or rough roads, but heat which is created inside the tire by internal friction. Heat not only weakens the fabric, but also softens the rubber, causing blowouts and tire failures.

The above illustration shows a single cord of a Firestone tire greatly magnified and untwisted into fifteen smaller cords composed of many little fibres.

By means of the exclusive Firestone Gum-Dipping process, every fibre is insulated with rubber, which prevents internal heat and friction.

Your local Firestone Dealer gives you the better service that goes with these better tires. See him today.

LOCAL & GENERAL

K. R. McLean, R.O., Sight Specialist, 212 Herald Bldg., Calgary, will make his monthly visit to Didsbury on Saturday, June 9th, in the Office adjoining Dr. Evans.
Phone 113, evenings, for appointments.

Very high winds have been experienced during the past week, and accompanied as they were by clouds of dust they have proved extremely disagreeable to merchant and householder alike. The newly-gravelled road is an especial source of annoyance, the dust arising therefrom with every passing car and penetrating every store along the route.

There is a certain responsibility here which the powers-that-be can not ignore, and as both the town and provincial government are implicated it would appear to be the logical thing for them to find a remedy.

Several of our merchants have suggested a watering cart.

The cost of this would not be great. In fact, a mere bagatelle in comparison to the labor involved from the dust.

While leaning against the school building at Grande Centre on Tuesday, Ruth, the young daughter of Mr. and Mrs. Mel. Shantz, accidentally fell and fractured her arm. She was brought into town and her arm attended to, and is now progressing favorably.

Didsbury will be represented at Olds on Thursday May 24th, in both the football and baseball tournaments. A large number of the townspeople are also preparing to go.

"The British Clipper" will be shown at the Opera House on Saturday, May 22nd. A real sea yarn. Come and view the briny.

Frank Mertens is a happy man. He has a new Ford tudor sedan.

"BEN HUR" AT CARSTAIRS.
Probably the last opportunity you will have of seeing this famous picture. "Ben Hur" will be shown at Carstairs, May 29th, at 8.30.

"The Desired Woman" at the Opera House on Wednesday, May 30th. A fascinating picture.

The new Ford cars are now coming into Alberta in enormous quantities. We will all have one soon.—Advt.

THANKS TO MOTHER

Mrs. E. Goudie
No doubt I'm owing many thanks To folks each day I'm meeting; Perhaps to those I'm passing by With just a friendly greeting. But I could safely say: "I know I don't know to another The heartfelt thanks, in the selfsame way As I'm owing them to Mother."

"Twas she who gave to me my life,
"Twas she who bore the strain,
If I was tossing, day or night,
Upon a bed of pain.
"Twas she who cooled my fevered brow,
She who knelt to pray
That God would spare the spark of life
And take the pain away.

"Twas she who taught me how to read,
She taught me how to write,
And common tasks of every day I learned within her sight.
She taught me how to love the Lord,
Her teaching will remain;
For Mother's God today is mine,
Oh, praise His matchless Name!

And as the years are fleeting on
And Mother's growing old,
I often think of things she did,
Of things to me she told,
That kept my feet from wandering
And led me on toward Heaven;
I thank the Lord that unto me
A Mother's love was given.

If it should be my lot—some day,
To stand by Mother's grave,
And realize that she had gone
Back to the God who gave,
There's not a person that I know,
None that I could discover,
Would fill that place again to me,
Just like my own dear Mother.

Friends, why not give the flowers now
While our Mothers see their beauty?
Not wait until it is too late
Then give, and say it's duty.
She's been our dearest earthly friend,
We'll never get another,
So let's resolve right here and now
To give our thanks to Mother.
—Written for Mother's Day. Read at the M.B.C. Church.

Didsbury Co-operates in Building Main Highway.

The main highway running through
Didsbury has now been re-surfaced
and put into excellent shape for the
summer. This work has been done
by the Didsbury town council in co-
operation with the provincial govern-
ment, and is in line with the offer
made at Edmonton some twelve
months ago.

Some additional pieces of missing-
link roadwork will be done this sum-
mer for improving such sections of

the highway as pass through the ur-
ban centres along the route. Ledue
town council is now calling for ten-
ders for so re-building its piece for
the north-and-south highway, and
Ponoka is preparing to do likewise.
Wetaskiwin is considering the matter.

Four towns took advantage last
year of the government's offer to pay
one-half of the cost of improving the
road within the town limits. These
were Lacombe, Blackfalds, Didsbury
and Red Deer. Several other towns
are not directly interested, for in the
cases of Innisfail and Carstairs the
present road is said to be in good
condition, and at Airdrie, Olds and
Bowden the route lies just outside
the town limits. At Crossfield a new
route is being opened up that will
similarly be outside of the town, and
therefore entirely a government res-
ponsibility.

The decision for or against the
government's fifty-fifty offer is left
in each case to the town concerned,
and it is not proposed to bring any
pressure to bear upon the towns still
out of the scheme to come into it.

"You're doing well, young fellow,"
said the shipping clerk encouragingly,
"the foreman praises you to the
skies."

"I'd sooner he'd praise me to the
boss," was the quiet reply.

"Many people say you have re-

versed some of your old opinions."

"Of course I have," replied Senator
Sorghum. "Otherwise, how would it
have been possible for me to remain
in political action all these years?"

"When old Richleigh died, he left a
request that his dust be scattered to
the four winds."

"Well, his spendthrift son is at-
tending to that all right."

Minister—"And so you are about to
take unto yourself a new wife?"

Grass Widower (wool-gathering)—
"Yes; what will you allow me for the
old one?"

Nurse—"Well, Bobby, you have a
new baby brother for a Christmas
present."

Bobby—"Oh, zowie! May I be the
first to tell Mother?"

Child in bus, to stranger—Daddy,
daddy!

Mother—Hush, darling. That isn't
daddy. It's a gentleman.

Being told to write an essay on the
mule, a small boy turned in to his
teacher the following effort:

"The mule is a hardier bird than
a guse or turkie. It has two legs to
walk with, two more to kick with,
and wears its wings on the side of its
head. It is stubbornly backward
about coming forward."

UNITED GRAIN GROWERS LTD

The Beauty of Spring in the Land of the Maple Leaf

"APPLE BLOSSOMS,
EMBLEMS OF SPRING"

PLOWING
IN NOVA SCOTIA

TAPPING MAPLE SUGAR
TREES IN QUEBEC

PRINCE OF WALES' E.P. RANCH

Spring is a resurrection of nature,
and human nature also awakens
to new hopes. A story of a benign
season is given when the rising of
the sap signalizes the budding of
the tree, when the rivers sing a
song of freedom and the birds add
their songs to the voices of little
children in streets or country lanes.

Though Spring and beauty can
be found anywhere, it is in the
country that it is ideal. Here one
can watch the tilling of the soil,
the plowing and planting that the
earth may yield for the needs of
man. Nova Scotia is delightful,
for there the battle and stress of
our modern era does not exist. It
is a part of that ancient country
of Acadia, and it is one of the
most beautiful provinces in the
Dominion of Canada. There is no
part of Nova Scotia more per-

meated with poetic legend and his-
toric lore than the Annapolis Val-
ley, Windsor, Grand Pre and Gas-
peteau. They were centres of
events in the early history of the
North American continent, for
French explorers visited this sec-
tion as far back as 1601.

Quebec Province in spring is
equally lovely, and especially the
rural districts near the fortified
Old World city of Quebec. Old
Norman farm houses sprawl along
country streets for miles. Way-
side shrines are many in this de-
vout province. Glimpses are had
through quaint courtyards or nar-
row galleries of women at their
spinning wheels. Here, as in sec-
tions of Nova Scotia, time is ap-
parently not fought for as else-
where.

Quebec is lovely in May, es-

pecially during the Canadian Folk
Song and Handicraft Festival, to
be held this year from May 24-28.
At the Chateau Frontenac one is
transported into past decades,
seeing the work of the habitants
as they ply their shuttles of dis-
tuffs. The musical programmes
are those of the early French
Canadians, habitant melodies,
brought over originally by the
French of early days.

It is refreshing in this age to
have a little of the peace of the
old world, and Quebec is impreg-
nated with an atmosphere of ro-
mance and pastoral beauty. Spring
days quicken the wanderlust, and
with the first notes of the meadow
lark and robin the country at-
tracts, and "Only the call of the
long white road to the far horizons
wall" lures and beckons to the un-
known places, beautiful in Spring.

Eternal Vigilance Is the Price Of Safety

Because of the appalling loss of life through motor car accidents, Governments and municipalities are enacting ever more stringent laws governing the use of highways and the operation of automobiles. Laws regulating the speed of driving, governing the use of headlights, compelling cars to come to a full stop before proceeding to cross railway tracks have been passed, while signalling devices, signs, guard rails at curves, embankments, and other danger spots are erected,—all with a view to protecting the public.

For the same reason laws are passed and regulations enforced governing the management of factories, mines, operation of railways and ships, laying down conditions under which women and girls may be employed, and stipulating a hundred and one things which must be done to safeguard workers in all departments of industrial life.

According to figures, the correctness of which are vouched for by the Midwest Safety Conference, as reported in a San Francisco paper, there were 24,000 deaths in the United States last year through traffic accidents, and 23,000 deaths through industrial accidents almost all of which were preventable.

But it will be a surprise to many to learn that accidents occurring in the homes of the United States took an even greater toll of life than did traffic accidents, or accidents in industry. Avoidable accidents resulting in death in United States homes in 1927, numbered 27,000, and, according to the report already referred to, "the bathtub and the stepladder were among the deadliest adjuncts of domestic life, and the two combined contributed a large proportion of these 27,000 home fatalities."

Traffic regulation and industrial safety laws are the business of the public as well as of the individual; hence the interest displayed by all governmental authority. Because they are susceptible of public regulation the problem they present, and which fills the newspapers today, should be easier than that of the household fatalities. As the San Francisco paper says, "it is not possible to put the equivalent of a traffic cop into every home to supervise the hanging of draperies, the dusting of walls and the training of the climbing vines. Nor would it be desirable even were it possible to have a uniformed public official handling careless people in and out of slippery bathtubs. The law cannot direct the turning on and off of gas cocks. It cannot keep matches out of the reach of children. It cannot be the keeper of the family medicine chest. It cannot make itself the custodian of the household arsenal and see that unloaded guns are always unloaded. It cannot prevent the starting of stove fires with kerosene,—or the use of gasoline near a lighted lamp or a burning fire."

These and a multitude of other vigilances rest solely with the individual. Until the individual exercises the necessary caution the lurking dangers of the household will continue to take their toll.

Throughout this great Canadian west not a week passes but the newspapers tell the terrible story of a calamity in some home, resulting in death and maiming for life, the direct result of downright carelessness. A destructive prairie or forest fire rages because someone neglected to put out a camp fire, or dropped a match, or started burning straw or rubbish without taking necessary precautions. An explosion wrecks a home and takes a toll of life because gasoline was left where it should not have been. A child drinks a cup of lye in mistake for water, and dies or is crippled for life. And so on, and on, and on.

And all the laws, and regulations, and prohibitions that all the Parliaments, and Legislatures, and Municipal Councils in the country may pass cannot stop these tragedies. In the forceful slang of the day "it is up to the individual" to exercise caution, to be vigilant. Only so can the daily loss of life through these accidents in the home, in industry, and on the highways of our country be reduced and practically eliminated. Ninety-nine out of every one hundred of such accidents are preventable. It is for the people to realize this. When they do the accidents will cease; until they do realize it and govern themselves accordingly, sorrow, pain and loss will continue to be a permanent visitor in our midst.

Ideal Tourist Camp Of Calgary

The Calgary Automobile Club is planning to equip and operate what they claim will be the most modern automobile tourist camp in Western Canada. The camp will be well lighted and equipped with gas for cooking water, shower baths, car shelters and other conveniences for the accommodations of motor tourists.

If a thing must be done there is no time like the present for doing it.

Cheapest Of All Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is to be found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So, being easily procurable and extremely moderate in price, no one should be without a bottle of it.

Nagg—Did you hear of my father's death? Do you know, he left \$50,000?
Tagg—That's nothing. My grandfather left the earth."

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 50 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet, the pain de-

Sour Stomach

parts. You are happy again in five minutes. Don't depend on crude methods. Employ the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

World's Grain Congress

Will Mark Fiftieth Anniversary Of
Coming Of The Railway and Birth
Of Prairie Agriculture

The first world's grain congress scheduled for Regina, in 1932, will mark the 50th anniversary of the arrival of the Canadian Pacific Railway and the birth of prairie agriculture, outside of a comparatively small earlier settlement in Manitoba. In outlining steps preliminary to the summoning of the congress, Hon. W. R. Motherwell, Federal Minister of Agriculture, announced: "The proposal to hold a world's grain congress in Canada has been quietly discussed and canvassed by a few enthusiasts in the west for the past two or three years. In the meantime, the pronounced success of the world's poultry congress has stimulated and crystallized the proposed grain congress into possibility and visibility."

Named After Lindbergh

Canadian Island and Station Will
Bear Aviator's Name

Colonel Lindbergh will have the honor of having an islet in British Columbia and a station in Alberta named after him. Paul Lambert, of New York, owns a small island in Seattle Bay, near Nanaimo, B.C., and asked the Geographic Boards of British Columbia and Canada to approve of the name Lindbergh for it. Neither board has objected. They claim as private property he can call it what he likes, as long as it doesn't interfere with present names.

The Dominion Geographic Board received an application from the Canadian National at Winnipeg to approve naming a railway station in Alberta after the famous aviator. The board has given approval.

For Nervous, Sleepless
Children

From Canada the fame of Baby's Own Tablets is spreading over the world. Mothers recommend them to other mothers and wherever they are tried nothing but words of praise are heard for these pleasant tasting little tablets that promptly relieve the minor ailments of young children.

"Baby's Own Tablets are one of the best remedies for children's ailments I have ever used," says Mrs. Arthur T. Allen, of Auburn, Me. "My little girl was nervous and could not sleep. I tried the tablets and she was relieved at once. She was also troubled with constipation and nothing seemed to help her. I had used the Tablets but a short time before her bowels were regular. All mothers should keep Baby's Own Tablets in the house for they are a valuable remedy."

Baby's Own Tablets are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

First Thing Man Exploited

In 1300 B.C. Hittites Had Laws
Governing Bees

The bee was probably the first created thing whose labors were exploited by mankind.

In the Hittite code of laws, dated 1300 B.C., punishments for the theft of bees and hives were mentioned. About 4000 B.C. the bee was adopted as the symbol for the King of Lower Egypt. Hieroglyphic bees were found from the First Dynasty down to Roman times, a period of some 4,000 years.

Bee-keeping was regularly practised in Egypt in 2600 B.C.; reliefs exist showing the conformation of the hives—mud structures placed one over the other—and the men engaged in pouring out the honey and sealing it in jars. But thousands of years before this the wild honey was extracted from rocks and trees. It was only in comparatively recent times, some six or seven thousand years ago, that it occurred to man to reduce the bee to slavery.

As a vermicide an excellent preparation is Mother Graves' Worm Exterminator. It has saved the lives of countless children.

Thrift is a state of mind. A man buys a \$500 car as an example when he wants a \$5,000 car and can afford no car at all.

Insist on Minard's Liniment—accept no other.

Wireless Saved the Situation

Egypt Able To Greet Afghan Ruler
With His National Anthem

A very embarrassing situation was averted and Egypt greeted King Amanullah and his queen with proper ceremony upon their arrival from Bombay, thanks to wireless.

A frantic message picked up by the P. and O. liner Rajputana, from an Egyptian operator, bemoaning the fact that Egypt was not acquainted with the Afghan national anthem. The purser had it wirelessly to Port Said, where it was deciphered—note for note—and upon the arrival of the royal pair they were greeted with a perfect rendition of their anthem.

Secured a Homestead

Two Brothers Maintain Long and
Lonely Vigil For This Purpose

Determined to file on a homestead near his father's and brother's at Loyalist, Alberta, when the cancelled homestead rights were thrown open to the public at the Dominion Lands Office in Calgary, Cyrus Buxton, 18 years of age, assisted by his brother Paul, 24, kept first place outside the building for an entire week prior to the opening. A blanket was drawn across a corner of the building within a few feet of the entrance and here the brothers slept during their six hours' shifts. They were successful in securing the desired homestead.

Fort Vermilion Wheat

Wheat Grown Close To Arctic Circle
Weighs 64 lbs. To the Bushel

Wheat from Fort Vermilion, 250 miles north of Peace River, weighed 64 pounds to the bushel and graded No. 2 without dockage. It was sent to the Alberta wheat pool by James McGraw, a farmer in that district. Although Fort Vermilion is close to the Arctic circle, wheat growing is not new in that area. In 1876, wheat grown at that point won the championship at the Centennial Exhibition at Philadelphia.

That Stomach of Yours!

London, Ont.—"I was in a general rundown state of health. I had indigestion and my stomach was weak and so sore I could not bear to touch it. I got where I did not have any health at all, was not able to follow my usual line of work. I saw Dr. Pierce's Golden Medical Discovery recommended for stomach trouble so I decided to try it and it relieved me of my indigestion and weak stomach and built me up in health. I can highly recommend the 'Discovery' to anyone who suffers as I did. It is excellent."—Francis Henry Cook, 471 Elizabeth St.

All dealers. Extra large bottles, liquid \$1.35; Tablets \$1.35 and 65c. Write Dr. Pierce's Invalids Hotel, Buffalo, N. Y., for free advice.

HERCULES PERMANENT BUILDING PAPER

MR. THINKER—

here's your health

Most of your clients are thinkers. A few facts regarding Hercules will impress them. Hercules—in three grades, x, xx, xxx—is tested and proven wind proof and damp proof. A little thought will show them that this is all a building paper should be.

And above all, by these very qualities, Hercules becomes the protection of the most precious treasures of the occupants of any home—their health.

A sample of Hercules is yours for the asking.

ADVOCATE PLAN OF INSURANCE FOR UNEMPLOYED

Ottawa.—The House of Commons committee on industrial and international relations endorsed the principle of unemployment insurance based on compulsory contributions by the state, the employers and the employee in its report tabled in the House.

The report states that the necessity for providing some method of unemployment insurance, "will inevitably have to be dealt with before long as a solution in part, of the industrial problems of the present day."

The report indicates that the success of any plan of unemployment insurance depends upon several of the provinces being willing to act simultaneously.

It is of the opinion that the matter should be referred to the provinces to find out the extent to which they will be willing to adopt legislation respecting unemployment insurance and to what extent they will be willing to go.

The committee experienced difficulty in arriving at approximate costs of unemployment insurance because there was no definite method of ascertaining unemployment at any given point for any length of time.

The committee recommends: "That the government immediately devise some means whereby the amount of unemployment over a period of a year could be reasonably calculated."

The committee also recommends that the government secure from Great Britain advice on the subject and that the subject be dealt with further by the committee at the next session of parliament.

Discusses Antarctic Plans

Wilkins Hopes To Locate Suitable Base For Meteorological Station

Tromsø, Norway.—Captain George H. Wilkins commenting on Spitzbergen's place in the future of Arctic airways, said: "It likely will be the half-way house between Chicago and China."

Wilkins said, in discussing his plans for an Antarctic flight, that he hoped to make an aerial camera survey of the coasts of the Ross Sea to Graham's Land, for the purpose of locating a suitable base for a meteorological station. Such a station would be of great importance in forecasting the weather for Australia, South America and Southern California.

Farm Workers Scarce

Demand In Northern Alberta Exceeds Supply Is Report

Winnipeg.—The influx of immigrants this season has been well covered, and in northern Alberta there is scarcely enough farm help to meet the demands, according to J. S. McGowan, western manager of the colonization department of the Canadian National railways who returned here from a tour of the west.

He estimated that well over a million acres of new land will be cleared and brought under the plow this year in northern Alberta and northern Saskatchewan.

New immigrants, he said, were being used extensively in this work.

Acquire More B.C. Land

Sardis, B.C.—The John I. Haas Hop Company, of San Francisco, that now has 100 acres of land in hops at Sardis, B.C., recently acquired additional 80 acres just south of its present holdings, which will be trellised during the coming season. There were approximately 750 tons of hops grown in British Columbia last year, practically all of which have been shipped.

Amendment Deleted

Ottawa.—The Senate deleted the amendment to the act respecting inter-provincial and international traffic in intoxicating liquors, which permitted the transportation from one province to another of a half gallon or less. Senator Dandurand read protests from nearly all the provinces against the amendment.

W. N. U. 1734

File Appeals In Libel Suit

Defendant In Currie Action Claims New Evidence Discovered

Toronto.—Appeals from the verdict of the special jury at the Cobourg assizes last month awarding Sir Arthur Currie, commander of the Canadian corps in France, \$500 damages in his libel action against W. T. R. Preston and F. W. Wilson, of Port Hope, were filed recently. Mr. Preston and Mr. Wilson were not accompanied by counsel when they visited Osgoode Hall to file the appeal.

One of the chief grounds of Mr. Preston's appeal is contained in a statement that new evidence has been discovered. He claims that an order was issued to the respective units of the Canadian corps about 4:30 p.m., November 10, 1918, that operations would be concluded and hostilities cease at 11 o'clock on the morning of November 11.

Other grounds include the assertion that the judge mis-directed and non-directed the jury, that certain evidence was erroneously excluded, and that the judgment was contrary to the evidence.

Mr. Preston and Mr. Wilson filed separate notices of appeal.

Staff Is Kept Busy

Requests For Returns By House Members Are Numerous

Ottawa.—Returns requested by members of the House of Commons are so numerous and voluminous that some of the Government's departments are having difficulty in keeping pace with the demand.

This was stated in the House of Commons by Hon. J. A. Robb, Minister of Finance. Mr. Robb informed the members that Government departments stated that the requests from the House were adding materially to their work. Some of them declared that they must either have more time to get out the returns or more help to do the work.

Mr. Robb made this statement in explaining why it took some time to furnish certain returns requested by members.

Willingdon Opens

Institute For Blind

New Building Provides Treatment For Sightless In West

Winnipeg.—The opening of the new building of the Canadian National Institute for the Blind, at Winnipeg, will be the means of not only comforting and supporting hundreds of those now afflicted, but of saving the sight of at least half of those in Saskatchewan and Manitoba whose vision would otherwise be doomed.

This was the repeated statement of successive speakers representative of the institute when His Excellency Viscount Willingdon, governor-general of Canada, officially declared the new building open.

Amendment Defeated

Anti-Dumping Move Lost By Large Majority In House

Ottawa.—A Conservative anti-dumping amendment to supply was defeated in the House by a vote of 110 to 59. The amendment was moved by R. K. Anderson (Conservative, Halton), and was that the government should take necessary action effectively to control the importation into Canada of natural products of a class or kind produced in Canada, under conditions that operate to the detriment of the Canadian producers.

A. W. Neill (Independent, Comox-Alberni), voted with the Conservatives, while the Progressives and U.F.A. voted with the government.

Explorer Reported Safe

Berlin, Germany.—Reports received here from Leh, Northern India, says the German explorer, Wilhelm Filchner, the British missionary, Mat Wilson, and the American missionary, Playmire, arrived safely there. Filchner, in 1920, had been reported murdered together with several members of his Tibetan expedition.

Sending Plane To States

Oslo.—The plane in which Captain George H. Wilkins and Carl B. Eliason flew from Alaska to Spitzbergen, has left Tromsø aboard a ship for Bergen. It will eventually be sent to America on a Norwegian liner.

Formed Permanent Organization

Dr. C. M. Hincks, medical director of the Canadian National Committee for Mental Hygiene, was elected president of the Canadian conference on social work held in Montreal. Due to the success of this first conference a permanent organization was formed with Dr. Hincks at its head.

Ask Higher Tariff On Dairy Products

Findings Of U.S. Commission Not Yet Submitted To President

Washington.—The tariff commission's recommendation on milk and cream duties has not yet been sent to the president. The Canadian Press learned two weeks ago that the findings of the commission which recently investigated the cost of production in Canadian dairies, were ready for the White House, and it was understood that an increase in the duties would be recommended.

The farmers' co-operatives, who claim to represent 981,000 farmers in this country, asked for upward revision of the tariff on practically all products of the farm, except grain on which they already have a prohibitive tariff. In most cases they ask, in their resolution addressed to Congress, about 100 per cent. increase in the existing duties.

No Opposition From Britain

But Chinese Troops Must Not Enter Legation At Peking

London.—The British government has no intention to offer any opposition to the advance of the Chinese Nationalist armies on Peking, Godfrey Locker-Lampson, under secretary for foreign affairs told the House of Commons.

Mr. Locker-Lampson said the Government's only care was to see that these troops did not enter the legation quarters.

Might Make Separate Pact

British Dominions Could Deal Directly With Washington On Peace Plan

Washington.—The possibility that the British Dominions may make separate treaties with Washington to outlaw war is being discussed here.

Secretary of State Kellogg, whose proposals for treaties between the great powers to disavow war as an instrument of national policy have been tentatively approved by Britain, said that he had no official intimation from London that any reservations would be demanded as indicated in news dispatches. He agreed that if any difference of opinion existed as to the exact basis on which Britain would negotiate with Washington, they probably were between Great Britain and her Dominions. He had been informed that London was taking up the whole question with the Dominions before replying to the U.S. Secretary of State's overtures.

Asked if the Dominions would have separate treaties, Secretary Kellogg said that was a matter for the Dominions themselves to decide, in consultation with the British government. In a general way the opinion is expressed here that it would not be inconsistent with the policy of Canada in recent years if Ottawa elected to deal directly with Washington when it comes to a declaration of policy on the arbitration of disputes and the outlawing of war.

Exports Cut In April

Imports Were Higher and Income Tax Revenue Increased

Ottawa.—Canadian exports in April were lower in volume than a year ago, while imports were higher. Revenue from customs and excise were lower by nearly a million dollars in April last than in April, 1927.

Revenue from income tax was nearly two million dollars more last month than in April a year ago, according to the monthly statement issued by the Department of National Revenue.

Sending Observers To Geneva

Washington.—While the United States has declined an invitation to participate in the eleventh international labor conference at Geneva beginning May 30, it is learned that both the United States government and the American Federation of Labor will send unofficial observers to watch proceedings.

Railway Manager Arrested

Warsaw, Poland.—Police arrested Stanislas Turek, assistant manager of the railway administration, and three other men, charged with selling secret plans for Polish railway mobilization in case of war to Moscow. The men also are accused of betraying secrets of Polish airplane manufacture.

DID NOT NAME MR. McMURRAY SAYS HON. FORKE

Ottawa.—Emphatic denial of any knowledge that Hon. E. J. McMurray, former Solicitor-General, had trafficked in special immigration permits was made at the parliamentary immigration inquiry by Hon. Robert Forke, Minister of Immigration.

"I can state emphatically that I did not make any of the statements which Mr. Coldwell says I made about Mr. McMurray," Mr. Forke declared, in referring to the statement by Ald. M. J. Coldwell, of Regina, that Mr. Forke had named Mr. McMurray in this connection.

"Mr. McMurray's election was in 1925, two years before I came into the department," Mr. Forke continued, "and I knew nothing about Mr. McMurray's transactions with the department, if any took place, and since I came into the department I have had no dealings with Mr. McMurray, directly or indirectly."

"Regarding Mr. Coldwell's statement about my telling him I had checked up the records of the department regarding the number of permits issued by my predecessors, and that I said I wrote my predecessor and that he wrote his predecessor, I want to say positively, that if Mr. Coldwell got this information at all, he did not get it from me," Mr. Forke continued.

"At no time did I ever examine or check up the previous records of the department in regard to the number of permits issued by my predecessors, I have no knowledge of the number of permits issued by them and I did not write to any predecessor in connection with the number of permits which had been issued."

Hon. R. J. Manion, (Conservative, Fort William), was given permission at the outset of the sitting to make a statement in respect to the casual mention of his name by Ald. Coldwell.

"I wish to state emphatically that in the time I was acting minister of immigration in July, 1926, I personally issued no permits to anyone and no permits were illegally or irregularly issued to anyone," Dr. Manion declared.

"In fact no permits of any kind were issued which were not wholly within the law and the regulations."

Dr. Manion emphatically denied that he had communicated at any time by word or letter with Mr. Forke regarding permits. He felt that Mr. Forke would agree with him in this statement.

Salary Increase For Judges Recommended

House Will Have To Approve Report Of Committee

Ottawa.—An increase in salary to Canadian judges has been approved by the special parliamentary committee. The committee's report will, it is stated, recommend an increase of \$2,000 to county court judges; the same amount to provincial court judges, and \$3,000 increase for judges of the supreme court of Canada.

The committee held its sessions in camera. It is understood that the report was only adopted on the casting vote of the chairman.

The committee's recommendation will have to receive the approval of the house.

An increase in salary of \$2,000 per annum is also recommended for judges of the exchequer court of Canada.

The conclusion reached by the committee was that the remuneration paid to judges in Canada was inadequate and should be increased.

May Be Envoy To Canada

Washington.—It is rumored here in diplomatic circles that Setsuzo Sawada, counsellor to the Japanese embassy here, will be the first Japanese minister to Ottawa. The Japanese embassy declines to comment on the rumor.

Will Not Resign

Bucharest.—Premier Bratianu will tell the Rumanian parliament that the cabinet has no intention of resigning or heeding other of the peasants' demands, it is learned from semi-official quarters.

Rolf Hansen and Anna Auguzen, of Oslo, immigrants, were married in the Canadian National Railways Colonization Offices by Rev. T. J. Langley, of the Norwegian Lutheran Church, on their arrival in Winnipeg. They desired to face their new life in Canada as man and wife rather than to separate. They will go on a farm near Birch Hills, Sask.

Church Announcements

United Church

Rev. A. E. Hayes, B.A., Minister.

Sunday, May 27th. Knox Church at
7.30 p.m.

It would be a hard-hearted minister
who begrudged his people an occasional
Sunday away, especially when the day
was the hottest of the year thus far.
Plan to attend this Sunday. A good
helpful message will be delivered. Come.

Baptist Church Notice

Elkton schoolhouse, Sunday School at
3 p.m. Westcott preaching service held
at 8 p.m. Everybody cordially invited.

Lutheran Church

Westcott 10.30 a.m., German; Dids-
bury at 2.30 p.m., English; Westcott at
8.00 p.m.

Appropriate Pentecost subjects have
been chosen for both the morning and
the evening services to be held on Sun-
day next, Whitsunday, while a confir-
mation address will be delivered in the
afternoon. In reference to Pentecostal
blessings the pastor in the morning will
answer the question: "What must we do
in order to obtain the gift of the Holy
Spirit?" "The Divinity of the Gospel"
will be his subject in the evening. All
Lutherans and such as are affiliated
with no church are cordially invited to
attend.

In a slogan campaign recently con-
ducted by the Lutheran Laymen's
League the following slogan was accept-
ed: "A changeless Christ for a changing
world."

NOTICE TO CREDITORS AND CLAIMANTS.

IN THE ESTATE OF CHRIS
WIKER (WICKER), late of the
Post office of Bergen, in the Prov-
ince of Alberta, Farmer, deceased.

NOTICE is hereby given that all
persons having claims upon the
estate of the above named Chris
Wiker (Wicker), who died on or
about the 6th day of March, A.D.
1928, are required to file with the
undersigned Administrator by the
26th day of June, 1928, a full
statement duly verified of their
claims and of any securities held
by them, and after that date the
Administrator will distribute the
assets of the deceased among the
parties entitled thereto, having re-
gard only to the claims of which
notice has been so filed or which
have been brought to his knowl-
edge.

DATED this 14th day of May,
1928.

Official Guardian and Adminis-
trator of the Estate of Chris Wiker
(Wicker). Parliament Buildings,
Edmonton.
